

## **MORE EXPERIENCE** **INSURING OVER 200 COLLEGES AND UNIVERSITIES.**

Bollinger's program of College Student Health Insurance is now used by more than 200 top colleges and universities.

The program is underwritten by A rated insurance companies with whom we have exclusive relationships.

All servicing and administrative functions including marketing, rating, policy issuance, billing and claims processing and payment are performed by Bollinger from our Short Hills, NJ office. Our program is available in 47 states and the District of Columbia.

## **MORE PRODUCTS** **BENEFIT STRUCTURES ARE TAILOR-MADE FOR YOU.**

Every college is unique. Each differs in the make-up of its student body, the extent of on-campus healthcare facilities, the extent of intramural athletic programs, the proximity of off-campus physicians and hospitals, etc.

For this reason, we work closely with college officials and/or the college's insurance broker to design a program that addresses the unique circumstances of each college. Tailoring involves establishing the appropriate coverages, benefit levels and enrollment procedures that are right for each school's individual situation.

## **MORE INNOVATION** **WEB SITES CREATED FOR EACH COLLEGE WE COVER.**

A separate, customized web site is constructed for every college health plan we provide.

These web sites have been enormously popular with students who can now go on-line to obtain answers to frequently asked questions, print out claim forms, view a copy of the plan brochure, inquire into the optional preferred provider network, and in some cases, purchase dependent coverage. In addition, students can now go on the plan website to electronically submit a claim or to inquire as to the status of a pending claim. This capability saves time and reduces the need for involvement by college officials.

## College Medical Insurance Program

## **MORE DIVERSITY** **INTERCOLLEGIATE SPORTS PROGRAMS ARE AVAILABLE.**

Also available is coverage for intercollegiate athletes. This coverage can be provided through the college's Student Health program, or through a separate accident policy to cover athletes.

Either way, coverage and benefit levels may be tailored to the individual needs of each college.

Separate catastrophe coverage for athletes is also available.

## **MORE FLEXIBILITY** **OPTIONAL PREFERRED PROVIDER NETWORK AVAILABLE.**

Our program has access to one of the largest Preferred Provider networks in the country.

Participation by individual claimants is optional. A directory of network providers is sent to each insured college and access to the directory is also available through the college health plan web site. If a claimant elects to use a network provider, he or she will receive discounted fees for service.

This can translate into lower claim costs, lower future premium rates and may result in lower out-of-pocket charges to the student.

## **MORE KNOWLEDGE** **AN EXPERIENCED TEAM WITH A HISTORY OF SUCCESS.**

At Bollinger, we've been providing Student Health Insurance plans since 1946 and have used the same family of underwriting companies since 1969.

We specialize in providing customized insurance programs to carefully selected niche markets such as colleges, K-12 schools, amateur sports organizations, golf and tennis clubs and municipalities.

Our wide array of programs are available directly from Bollinger, or through the insurance broker community.

Count on us for more.
